Assignment 5 - Statistics

Statistics

Carry out all of the following tasks:

1. Carry out all calculations from the exercise outlined in the slides "Data Exploration - Statistics 1 Exercises". Use a Word/LaTex document that outlines R code, results and/or plots.

2. You need to submit the detailed solutions of all questions outlined in the document "Statistics 2 – Exercises" in paper format (hand written). Ensure your student number is on each page) This needs to be left in my letterbox (opposite the photo copier room in the E-Block or alternatively you can scan the pages, create a pdf and submit it together with the other files).
