Assignment 4 - Document Structure

Document Structure

1. Plan your thesis document in LaTex. This should contain a detailed breakdown of each section. Write a brief summary of what information you would like to add to each chapter/section/subsection (unless you already have content in which case you add the content).

2. You need to produce a substantial amount of chapters, sections and subsections.

3. Your submission must include the tex related files as well as the produced pdf
